

Fleet Web Release Notes

August, 2022

Improvements

Following Improvements have been made on Classic Fleet:

- Adding a Service Entry now allows multi-line comments.
- Enhancements are made to the '+Add Service Entries' feature to improve usability.
- The Username Email Split message is no longer displayed on the login page for a cleaner look.

Fixes

- Minor bug fixes and performance enhancements.

Improvements

Service Entries can now have multi-line comments

We have now enhanced the ability to add multi-line comments when adding a Service Entry. Special characters are not allowed except for alphanumeric, hyphen, hash, underscore, and single quotes characters.

The screenshot displays the 'Add Service Entry' form in the Azuga Fleet Web interface. The form is titled 'Use this page to setup service entry records. After service entries are created, you will be able to edit each one individually. Service Entries will auto reset the Service reminder on corresponding vehicles and assets. Service Entries help in book keeping of vehicles and assets service history.' The form includes the following fields and sections:

- Top Navigation:** LIVE, SAFETYCAM, REWARDS, COACH, DASHBOARD, REPORTS, MAINTENANCE (active), JOBS, ADMIN, DEVELOPER, ELOGS. User info: Azuga Telematics, Admin: zabc test, ID: 2175, Change.
- Left Sidebar:** Dashboard, Service Entries, Reminders, Service History, Maintenance, Alert.
- Main Form:**
 - Cancel** button.
 - Select Vehicle/Asset:** 1006928836.
 - Service Date:** 08/03/2022.
 - Odometer:** 13420.
 - Engine Hours:** 1700.
 - Category:** Scheduled Maintenance.
 - Service Cost:** 45 \$.
 - Service Centre:** (empty).
 - Invoice Number:** 382/K8/219.
 - Comments:** (highlighted with a red box, containing 'Test 1' and 'Test 2').
 - Attachments:** Choose files, No file chosen.
 - Reset Last Service Date:** (checkbox, unchecked).
 - Upload multiple service entries:** Choose files, No file chosen.
 - Upload Spreadsheet:** (button).
 - Download a sample spreadsheet:** (link).
- Bottom:** Save Service Entry, Cancel.

Enhancements are made to the '+Add Service Entries' feature to improve usability

In order to improve the usability of the +Add Service Entries, new enhancements have been added. These enhancements include:

- Reduced the size of the pop-up window by eliminating white space at the bottom.
- Service Types can now be scrolled down.
- A newly added field '+Add New Service Type' allows users to add new service types when they cannot find the desired one from the drop-down list.

The screenshot shows the 'Add Service Entry' form in the Azuga Telematics system. The form is titled 'Use this page to setup service entry records. After service entries are created, you will be able to edit each one individually. Service Entries will auto reset the Service reminder on corresponding vehicles and assets. Service Entries help in book keeping of vehicles and assets service history.' The form includes several input fields: 'Select Vehicle/Asset' (a dropdown menu), 'Service Date' (a date picker set to 08/18/2022), 'Odometer' (a text input), 'Engine Hours' (a text input), 'Category' (a dropdown menu set to 'Scheduled Maintenance'), 'Service Cost' (a text input with a dollar sign), 'Service Centre Duration (dd:hh:mm)' (a time picker set to 1:00:00), 'Service Centre' (a text input), 'Invoice Number' (a text input), and 'Attachments' (a file upload area). A 'Services performed' dropdown menu is open, showing a list of service types: 'Select Service Type', 'Add New Service Type', 'Oil change', '2175 testing webv2', 'ATRS', 'Air Filter Replacement', 'Anti-freeze', 'Bala Try', 'Battery Inspection', 'Brake Inspection', and 'Crane Inspection'. The form also has buttons for 'Save Service Entry' and 'Cancel'. At the bottom, there is a table with columns 'VEHICLE/ASSET', 'ASSET NO', 'SERVICE TYPE', and 'ATTACHMENT'. The table shows one entry: 'Wheel Alignment, Oil change, Engine Oil Replacement, Battery Inspection'.

The Username Email Split message is no longer displayed on the login page for a cleaner look

We have removed the Username Email Split message from the Login page to make it look cleaner and more visually appealing.
